

Sustainability Management Policy

Thai President Foods Public Company Limited is committed to operating and managing the sustainability of the organization to be efficient and continually developed. Therefore, we would like to announce the sustainability management policy as follows.

1. Be determined to operate with responsibilities for impact in various aspects, resulting from the organization's business operations, by adopting business practices, which are transparent, verifiable, ethical, and respecting human rights and honoring interest of the stakeholders
2. Be determined to produce instant food of quality and safety for the consumers, and regard impact on the community and environment, by satisfying the customers' requirements, and applicable laws and other regulations, as well as be determined to improve social responsibilities in continuous and sustainable manners

Dr. Poj Paniangvait

President
